REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art has failed to suggest either singly or in combination a novel foldable recliner chair. The applicant has disclosed the use of a folding recliner, comprising an extendable frame, a rear frame, seat frame, and a backrest frame; the extendable frame including two outer tubes, two inner tubes telescopically received by the outer tubes, and a leg. The outer tubes are provided at predetermined positions with a plurality of adjusting holes, while locating hole is provided near the rear end of each the inner tube, so that an insertion pin may be extended through any one of the adjusting holes and the location hole to connect the outer and the inner tube to one another. The rear frame includes a plurality of crossbars spaced between two side members, which are pivoted to the rear ends of said extendable frame. The applicant further discloses that two hooking bars of the backrest frame are pivotably connected to the seat frame; and hooks at upper ends of the hooking bars are detachably engaged to a selected one of the crossbars of the rear frame.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

An examiner's amendment clarifying the **obvious** errors, to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Art Unit: 3636

The application has been amended as follows:

Claim 3, line 4, delete the word "each".

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference No. 1,452,869, 2,450,783, 3,306,659, 6,247,753, and 6,679,556 show features of the claimed invention.
